Question

What service programs are needed at runtime?

Answer

The service programs you need at runtime depend on the version of WSDL2RPG you are using.

If you are using WSDL2RPG v1.7 or lower you need:

Tools/400 web service runtime	WSDL2RPGRT
Tools/400 runtime	BASICS1
HTTP API Scott Klement	HTTPAPIR4 (v1.22 or higher)
EXPAT parser Scott Klement	EXPAT

If you are using WSDL2RPG v1.8 or higher you need:

Tools/400 web service runtime	WSDL2RPGRT
Tools/400 runtime	BASICS1
Tools/400 Heap	HEAP
Tools/400 Mime parser adapter	HTTPMIME
Tools/400 Log4rpg stub	LOG4RPGS
Tools/400 Map	MAP
Tools/400 Mime parser	MIME
Tools/400 Vector	Vector
Scott Klement HTTP API	HTTPAPIR4 (v1.22 or higher)
Scott Klement eXpat parser	EXPAT

Your comments are important to me! Please send me your comments about this FAQ. I will greatly appreciate it.
